NUMBER 38

## ALL IS READY FOR SPORTS ON THURSDAY

Given Good Weather Success  
Of Function Will Be  
Assured

All is now in readiness for the grand program of military sports to be held on the school grounds on Thursday of this week beginning at 2 o'clock and with fair weather success to the big event is assured. The program is a varied one and compiled as to produce amusement and interest for the large crowd that is expected to be in attendance.

Following the military sports in the afternoon, a grand patriotic entertainment, under the direction of H. C. King, will be given in the Elite Theatre. At this performance, the Citizens Band will be in attendance, while, among other things, special war pictures will be shown. Following this, a Union Jack dance will be given at which the Citizens Band will play. Mr. Brookman will also preside at the piano. The whole of the proceeds will be used, for patriotic purposes.

### STRAWBERRY SOCIAL

The Ladies Aid of the Presbyterian church will hold a "Strawberry" social on the lawn of Mrs. Elder's residence at 7 o'clock on Friday evening of this week. In case of inclement weather, the social will be held in the Presbyterian church.

### CHURCH SERVICES

The friends of Colin Cattley are informed that a Memorial Service will be held in St. Thomas' Church next Sunday evening. The sermon will be preached from the text "There Was No More Sea."

At the St. Andrew's church on Sunday next, Rev. Thos. Murphy, pastor, will preach at both services. His subject at the morning service will be "I, Just I" and that of the evening which begins at 7:30: "The Secret of Success." Business men are especially invited to this service, the sermon being of special interest to them.

## BRANCH OF WOMEN'S INSTITUTE FORMED IN WAINWRIGHT

At a special meeting held in the council chamber on Saturday afternoon, a Wainwright branch of the Alberta Women's Institute was organized and the election of officers effected. Mrs. S. R. Bowerman was chosen president, Mrs. Herbert Smith, vice-president and Mrs. Middleman, secretary-treasurer. The meeting was attended by Miss Carlyle, B. A., director of household science of the Vermilion school of agriculture who thoroughly outlined to those present, the objects of the institution. It was decided to hold meetings on the second Saturday of each month in the council chamber if possible. The first of these meetings will be conducted on the second Saturday in June when definite plans will be decided upon. The objects of the association number many and include those for the consideration and simplifying of all problems pertaining to the home, the betterment of home conditions, the increase of general comfort, health and efficiency.

## AN INGENIOUS GUN TO CUT BARBED WIRE ENTANGLEMENTS

For the first time in the history of warfare, barbed wire entanglements are being extensively used in delaying the approach of the enemy and have proved a very serious obstacle for an advancing army. The gun shown in photograph shoots a projectile to which a cable is attached, the knives shown at the end of the cannon cut the wires and this instrument is again drawn back on a windlass.

## Sorenson And Cattley Went Down Together; Letter Received Locally

"Our friends are just back and no news. They saw Sorenson who said Colin and he stood side by side on deck and went down together." In such a way as this closes the letter to Matthew Greer from Miss Alice Cattley, sister to Colin Cattley who went down with the Lusitania.

The letter which comes from the Cattley home in Easingwold, England, is dated May 11th and in part is as follows: "We have been hoping for news all these days before writing to you and if we still hear we will cable at once. My brother-in-law and S. Frank, an old friend of Colin's went to Liverpool on Sunday. We were still full of hope that they would find him but they could find no trace of Colin at Queenstown and arrived before the funeral of the victims, so that they were in time to identify him if he had been there or in the hospital.

"Sorenson left Queenstown on Saturday but the Cunard

people could get no news from him. . . . We feel sure that Colin would help anyone before himself on board and we have put an advert in the papers for news of him from fellow passengers. It is a dreadful blow to Mother and us all, as we had so counted on his coming." The letter further extends thanks to Mr. Greer for his kindness and his good friendship to the late Colin Cattley.

## MOUNTED POLICE ISSUE WARNING TO STOREKEEPERS

Warning to storekeepers is issued by the local mounted police against bogus check artists in general and one George H.P. Williamson in particular, who recently passed a bogus check for \$112 on Loves and Todd at Red Deer, taking \$35 in cash and the balance in goods to be shipped to Lacombe.

The check was signed by Stephen F. Chase and was drawn on the Union Bank of Canada, Edmonton, and had a rubber stamp on it as follows: "Accepted, Union Bank, Edmonton". Union Bank officials were communicated with and they stated that they had never accepted any such check, and that the signer of the check was unknown to them.

It is the opinion of the Mounted Police that Williamson is likely to work the scheme in other towns. They thus issue a warning to the storekeepers and ask that all possible steps be taken to locate and effect the arrest of this man. Williamson is about 6 feet in height, weighs about 175 lbs, is dark complexioned, with dark eyes and is clean shaven. When last seen he was wearing a dark tweed suit, a black Fedora hat, and a long pointed collar. Williamson stammers slightly.

The Presbyterian church was filled almost to capacity on Sunday evening last, the large congregation present enjoying the solo given by Mrs. Thos. Murphy, wife of Rev. T. Murphy. The sermon delivered by Mr. Murphy was also appreciated.

## COMMITTEES ARE APPOINTED FOR BIG CELEBRATION

Definite Work Will Now Be  
Begin For The Big  
Function

With a large number of interested persons in attendance, a meeting in connection with the Twelfth of July celebration was held in the council chamber on Wednesday evening of last week at which numerous committees were chosen to complete arrangements for the festival which promises to be the largest of its kind ever held in Wainwright. To R. A. Snyder goes the thanks of the meeting for the speedy manner in which the various details in connection with the function were enacted. Mr. Snyder has been giving the proposal time and consideration for several weeks past and when he laid his recommendations before the assembly on Wednesday evening, were passed with very little modification or addition.

Each of the committees named will be expected to look after the branch they control in its every detail. For instance, a committee composed of Messrs. Beaudry and King was allowed \$100 and was named to look after the band competition. This committee will make all arrangements for this event and will later report to a meeting of the whole.

Authorization was also given this committee to arrange a concert in the rink on the evening of the celebration. The receipts of the concert will be divided 60 p.c. for the local band and the balance for the sports committee. This percentage idea was endorsed so that the band might reap a little toward the purchase of their uniforms.

The sum of \$200 was allotted for baseball competition prizes and a committee composed of Messrs. Milne, Siddall and Mann was appointed to handle the tournament throughout. Prizes of a minimum value of \$100 was allowed for the horse races and a committee composed of Messrs. M. Greer, T. G. Cook and R. Simmerman was named to look after the events. Messrs. King and Brodie were named a committee to control competitions to be arranged for the Cadets and Girl Guides. For these events, prizes of the value of \$25 will be offered.

Arrangements for prizes in connection with the Orangemen events, which will amount to \$75, were left in the hands of a committee composed of Messrs. Smith, McLennan and H. W. McLeod. Messrs. Lally, Tanquay, Kaine, A. E. Mills and V. E. Graham were named to act on the grounds committee. The finance committee will be composed of Messrs. Gerow, H. A. Cook and A. E. Mills, while that on advertising, McLeod, H. Cook and Webb. The committees are asked to commence their arrangements at the earliest possible moment so that they will be ready to report at a general meeting to be called in the near future.

### WILL REMAIN OPEN

The general feeling of the business men in reference to the closing of their stores during the sports on Thursday afternoon is that, owing to the farmers and people of the district not having received notification, that from merchants' standpoint and also from that of the incoming trader, it would not be advisable to close. Thus the stores will remain open on Thursday as usual.

## WAINWRIGHT'S SOLDIER BOYS PASS THROUGH TOWN ON THEIR WAY TO "SOMEWHERE"

Wainwright people saw two troop trains enter the local depot a little after midnight on Saturday last, and stretched from the windows of these trains some of Wainwright's people saw sons and brothers and other looked on friends who were clad in khaki uniforms and bound for "somewhere". It was the presence of these two trains that provided many local people with a last opportunity of seeing their boys prior to the latter's intended participation in the war. Although all arrangements in connection with the transportation of troops had been kept as quiet as possible, local residents learned at an early hour on Saturday evening, that troop trains were expected to pass through at 12 and 1 o'clock respectively. It was this knowledge that caused hundreds of persons to assemble at the depot and when the first train arrived shortly after mid-night it was greeted with the local cadet band and a crowded station platform. Not many of Wainwright's volunteers were aboard the first train but that which came later carried its quota of soldiers who had enlisted from this town. The scene that followed was one of those best described as never-to-be-forgotten. The men for whom Wainwright looked were not allowed to leave the train but from the windows many a kiss and hearty hand-clasp were exchanged. Gladness and sorrow were intermingled at the parting. And when the train steamed silently away, when the rear lights became dimmer and dimmer, those who still stood on the station platform wondered where its human freight was bound for. Inwardly they knew it would ultimately find its way to the battlefields of Europe, there to go on with that fight and to win—or die.

## Mounted Police And Local Man Narrowly Escape Serious Injury

Corporal Whitley and Constable Turnbull, members of the R. N. W. M. P., stationed at Edmonton. William Brunker, of Wainwright and R. Reuf of Dunn, had a narrow escape from death on Saturday night as a result of the collision of two motor speeders which took place on a curve of the Grand Trunk Pacific main line near Dunn, located east of here.

With William Brunker as their pilot, the two mounted police set out from Wainwright on the speeder for the purpose of inspecting the main line as far as the Alberta boundary, this procedure being taken to ensure the safety of the line prior to the running of the two troops trains which left Edmonton on Saturday night. The inspection had been made, the line had been found in perfect condition and the three were returning having finished their task.

Some unaccountable reason caused the light of their speeder to fail them and in darkness and at a speed of about twenty miles per hour they crashed in

to the speeder being driven by Reuf at a similar rate of speed. Reuf, it appears, had been to Edgerton, a few miles distant to purchase some supplies and without a headlight to his machine he too, was returning home. The crash that ensued was terrible, both speeders being smashed to atoms while the occupants were thrown head-long in all directions. Reuf was deluged with gasoline which caught fire and when the other three recovered themselves, it was to see Reuf racing around in flames. He had momentarily lost control of himself. The other three men ran to him as best they could and extinguished the flames but not until he had suffered severe burns to the face. The accident took place at 11-15, and the two police and Brunker awaited near the scene of the accident until the arrival of the first troop train which was pulled up and on which Reuf was taken to the hospital at Scott. How the other three men escaped serious injury is a miracle.

## E. JACKSON WRITES THANKING PEOPLE FOR REMEMBRANCE

The following is a letter received from Elmer E. Jackson, a Wainwright member of the 49th battalion which passed through Wainwright on Saturday. The prediction is that the epitaph will be read with interest by many: "We are on our way, but where we don't know. A thousand thanks to Wainwright's people for the reception they gave us and also for the many 'goodies' which were handed through the window. Believe me, they were enjoyed by all. All the boys were unanimous in their praise for Wainwright—it is the finest town they have struck so far. We are all comfortable and happy and the men who are going away seem to care the least, for you know we are all coming back. Watrous gave us a big turn-out and we have seen more girls to day than ever we

did before in one day. But I think they are all girls. Will say good-bye to you one and all until we have evened things with Germany for the death of Colin Cattley. Yours Elmer E. Jackson.

### ELECT OFFICERS

The following officers were elected for the ensuing term at a meeting of the Wainwright Lodge of the I.O.O.F., No. 45, held on Monday evening: J. Sutherland, Noble Grand; E. K. Smith, Vice Grand; H. W. McLeod, P. G. was re-elected secretary-treasurer. It was decided to hold a memorial day on Tuesday next, when brothers will march to the cemetery and decorate the grave of Past G. Christenson, now deceased. A full attendance will be requested.

## CITIZENS TALK OF FRANCHISE AT MEETING

Town Secretary Kenny Also  
Speaks To Gathering On  
Mill Question

The regular meeting of the Wainwright Citizens' Association was held in the council chamber on Friday evening of last week when Town Secretary N. S. Kenny gave an address briefly outlining the matter in connection with the mill question and telling of the progress of the proceedings being taken by the town.

President P. E. Ross, who was a member of the committee named at the last meeting to deal with the mill question, reported that owing to the legal action being taken by the council, that the committee had thought it best to defer investigation for the time being.

The matter of a tenant franchise was again introduced by Mr. Baynton, in reference to which considerable discussion took place. On the motion of Messrs. Lush and Baynton, the secretary was authorized to acquire from the department the reasons why tenants have not been given votes. It was also moved by S. Bowerman and seconded by Mr. Wiley, that the subject be discussed at the next meeting, and that five minutes be given to each speaker.

The question of disfranchising a ratepayer when the ratepayer has not paid the necessary taxes, was also discussed. Other matters of minor importance also occupied the attention of the gathering.

## LACK OF HOSPITAL IS BEING FELT IN WAINWRIGHT

The lack of a public hospital is being felt in Wainwright these days and almost every week it is necessary to report that in consequence of sickness and the lack of facilities with which to cope with the ailments here, persons are having to be transferred to Edmonton. The latest case on the register is that of Miss Mable Garrod, who, for several weeks past, has been residing at the Watson house. She was taken ill a few days ago and upon examination by Dr. Little, Miss Garrod was found to be suffering with internal troubles. It was in accord with the advice of the physician that she left Wainwright on Tuesday for Edmonton where she will undergo treatment in one of the city hospitals.

Chester O'Reilly left town on Monday afternoon's train for his homeosted in the Athabasca district. He expects to be absent from town for about a month.

Manager J. Kaine announces that from now onward matched games will be held at the ball practices on Wednesday and Friday evening. These will take place on the diamond west of the Park Hotel.

Cakes and party were given to Wainwright's soldiers by the Daughters of the Empire when the troop train arrived in Wainwright shortly after midnight on Saturday. Doubtless, the gifts and especially the thoughts that prompted them, will be greatly appreciated by the soldiery.

## Crossing Alfalfa

Experiments That Promise to Improve the Alfalfa Crop

Purposes

"Alfalfa is such a well known forage crop that little has been done to improve it by scientific breeding. But alfalfa has several serious defects. It is not well adapted to grazing, and it does not produce seed freely."

William Southworth of Ontario Agricultural College, Guelph, Ontario, has been making some experiments that promise greatly to improve alfalfa in these respects. He picked out the best plants in his alfalfa fields as the plants most likely to fulfill the conditions, the common yellow trefoil, known as black medick (Medicago lupulina).

The black medick is looked upon as a weed in the United States and Canada. It grows profusely in meadows, generally almost of quite that upon the ground. It has slender stems and produces an abundance of fine leaves.

Mr. Southworth reports the success of his experiments: While alfalfa seeds are poor, its cousin, the black medick, produces an abundance of seed. The alfalfa seems to need the help of seed from black medick growing as a weed in the alfalfa fields.

Mr. Southworth began in 1911 with alfalfa seeds from the United States department of agriculture, Washington, but, owing to the fact that the seeds were not set out in August of that year he had to wait until the following year.

He got out an alfalfa plant growing in a field of alfalfa, with the green foliage and an abundance of seed. The alfalfa was fertilized with potash from black medick growing as a weed in the alfalfa fields.

Sowing the seed from these in the alfalfa fields, the alfalfa plants, sixteen of which he removed from the open field. These were allowed to grow in the alfalfa fields.

Mr. Southworth says the cross is successful. The alfalfa plants are growing in the alfalfa fields. The alfalfa plants are growing in the alfalfa fields.

## GOOD PROSPECTS FOR BUMPER CROP IN CANADA

THE FIRST CROP REPORT ISSUED for the season by the Census and Statistics office of the Canadian government deals chiefly with the area and condition of the fall wheat crop and the progress of spring seeding up to the end of April.

"Owing to the mild winter and the favorable conditions which prevailed during the months of March and April, the fall wheat crop is reported as being exceptionally good on April 30. In Ontario where 1,043,000 acres were sown as estimated last fall, not more than 6.8 per cent. is reported as winter killed and in Alberta with 230,000 acres estimated as sown the proportion winter killed is only 6.2 per cent. These proportions are lower than in any year since 1908-9 for Ontario and lower than in any previous year on record for Alberta.

"These figures deducted from the areas sown leave 973,000 acres in Ontario and 215,700 acres in Alberta as the areas under fall wheat to be harvested. With 10,900 acres in Manitoba, 4,100 acres in Saskatchewan and 6000 acres in British Columbia, the total area under fall wheat to be harvested this year amounts to 1,208,700 acres, as compared with 973,800 acres, the area harvested in 1914.

"The spring is early and as a general rule the conditions for seeding have been most favorable. About double the amount of seeding was accomplished this year on April 30 than was completed on May 6 in 1914. Of spring wheat 93 per cent. was finished in Manitoba, 94 per cent. in Saskatchewan, and 91 per cent. in Alberta, these proportions being higher than in any year since 1910. In British Columbia the percentage is 89. For all provinces the percentage of seeding reported as effected on April 30 was 89 per cent. for wheat, 45 per cent. for oats, 38 per cent. for barley and 63 per cent. for all crops.

The foregoing information makes particularly interesting reading and the fact that Alberta's proportion of winter killed grain is less than that of Ontario, gives conclusive evidence as to how favorable is the climate of Alberta for the growing of fall wheat. Praises are sung every year as to the possibilities of a good harvest, but it is doubtful if ever a season opened with such glorious promises, as has this season of 1915. We need a good crop this year to put us on our feet and according to present prospects this good crop seems assured.

## THERE WILL BE MORE MONEY IN CATTLE THAN IN WHEAT GROWING

FOLLOWING HIS RETURN FROM EUROPE, R. Randolph Bruce, a well known rancher and old-timer in Western Canada, says the effect of the war upon the farmer will be to increase the price of beef so greatly that those who are raising cattle will make more money than the men who are growing wheat at a dollar and a half per bushel. This statement is also borne out by H. S. Arkell, assistant live stock commissioner for the Dominion government, who says that never in our statistical history have prices attained so high a figure either for cattle on the hoof or in the form of meat as to day.

What the price will be next year, when the full effect of the war is felt, is impossible to say. As has been stated in these columns on previous occasions, a splendid opportunity has been opened up for the Western Canadian farmer to obtain a great proportion of this European business. It is hard to find a district that is more suitable for the successful raising of cattle than is the Wainwright district and thus the farmer of this territory should do all in his power to forward the quality and increase the number of his stock. It will be well worth his while for in cattle there is money and there will doubtless be more within the next few months.

## ITALY AS A FIGHTING FORCE AND HER ENTRY INTO THE WAR

ITALY'S ENTRY INTO THE WAR should result in an early termination of the war. Although she has not been generally looked upon as such, Italy is a strong power so far as her fighting forces are concerned and with these pitted against the Austrian forces on the one side and the Russians on the other, it can be generally taken that Austria will be unable to hold the tight rein very long. With Austria falling and with the allies' efforts evenly concentrated on the Prussian borders, a day of decisive action should not be far in the future.

Italy at war will mean the resources of 3,200,000 armed men, about 1,200,000 of them trained soldiers, on the side of the allies. This army is the result of compulsory and universal service. In Italy conscription is in full force. The army consists of twelve corps, each of two divisions. The "first line", consisting of the younger and more vigorous soldiers, consists of 340,000 men. These are the men who are now fighting against Austria. The mobile militia consists of 250,000 men.

Italy is reported however, to have 1,200,000 soldiers under arms, and fully equipped. Gen. Zupelli, the Italian minister of war, says that the equipment of the Italian army and its weapons are superior proportionately to that of the German at the beginning of the war.

Enlistment in the Italian army begins at 20 years of age, and the conscript is subject to call to the colors for 19 years. The period for service in the regular army is 2 years, and the best conscripts are selected each year, or about one third of the recruits. The army of Italy as a whole consists of 96 regiments of infantry, 12 regiments of light infantry, eight Alpine regiments, 29 regiments of cavalry, 36 regiments of field artillery, one regiment of horse artillery, two regiments of mountain artillery, 10 regiments of coast artillery, two regiments of fortress artillery and a brigade in Sardinia, six regiments of engineers and a battalion of aviators.

About 2,200,000 of the total 3,200,000 comprising Italy's military resources in men consists of territorials whose total

training amounts to only 30 days of drill. This is a small amount of training compared to that given French and German territorials.

The infantry is armed with the Mannlicher Carcano magazine rifle of 6.5 millimeter caliber. The Alpine regiments are sharpshooters. Italian cavalry are noted for horsemanship, and Italian aviators have taken prizes at the Olympia shows in London.

Italy has 370 aeroplanes, with as many licensed pilots. She has ten dirigible balloons, with ten scout balloons.

## NOTICE

Judicial Sale of Farm Property

PURSUANT to the judgment and final order for sale there will be sold by Public Auction, with the approval of the Master of the Supreme Court of Alberta, at the office of the said auctioneer at Wainwright, in the Province of Alberta, on Thursday the 10th day of June, A. D. 1915, at 2 o'clock P. M.

The Southeast quarter of Section Twenty-four (24), Township Forty-five (45), Range Eight (8), West of the Fourth Meridian, in the Province of Alberta, containing by admeasurement One Hundred and Sixty (160) acres more or less, excepting all that portion covered by the waters of the Battle River containing Twelve and Forty-hundredths (12 40/100) acres more or less, and excepting all mines and minerals, and subject to the reservations and conditions in the original grant from the crown or in the existing certificate of title.

The vendor is informed of the following particulars:

On the property there is a house 16x16 and also a log stable 16x20. The property consists of One Hundred and Fifty (150) acres more or less, of farm lands, all of which are open. The soil and sub-soil is sandy loam. The property is situated two miles from railway station (Fahnestock) and twelve miles from a post office (Wainwright).

The property will be offered for sale subject to a reserve bid, which has been fixed by a Judge of the District Court.

TERMS of payment are: Ten per cent. (10%) to be paid to the vendor's solicitors at the time of the sale, and the balance paid into court to the credit of this cause within 60 days after the date of the sale, without interest.

In all other particulars the terms and conditions of sale will be the standing conditions of the Supreme Court of Alberta, as approved by the Master.

Further particulars can be had from Messrs. Farlee, Freeman, Abbott & McKay, Solicitors, ex., Edmonton, Alberta.

DATED at Wainwright, in the Province of Alberta, this 4th day of May, A. D. 1915.

J. I. POOLE, C. D. C.

Synopsis of Canadian Northwest Land Regulations.

THE sole head of a family, or any one over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the local land office or at the nearest land office to the district. Entry or proxy may be made at the office of any Agent of Dominion Lands, not sub-agent, on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required in every case, except when residence is performed in the vicinity.

In certain districts a homesteader, in good standing may pre-empt a quarter-section along side his homestead. Price \$5 per acre. Duties—Six months residence in each of three years after marking homestead; pre-emptor also to secure extra cultivation for free, until no patent may be obtained as to a homesteaded section, on certain conditions.

A settler who has exhausted his homestead right and cannot secure a pre-emption may take a purchased homestead in certain districts. Price \$10 per acre. Duties—Marking and cultivation in each of three years, until no patent may be obtained as to a homesteaded section, on certain conditions.

## SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta and the Yukon Territory, the North-west Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1.25 per acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be stated by the applicant himself.

Each application must be accompanied by fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents or ten.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not operated, such returns shall be furnished at least once a year.

The person operating the mine shall be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the same.

W. W. CORY  
Deputy Minister of Interior

## Edgerton

The band has received two engagements for this month and will play at the celebration held here on July 1st. O. Walrath has been able to get a few more men to join during the past week and nearly all the members are working hard to have a good selection for the next turnout.

A number of the Edgerton cadets are likely to journey to Wainwright on Wednesday to take part in the celebrations there the following day.

Grounds are now being laid out for a good level tennis court a little west of the home of T. H. Backus and a number of people in town intend taking up the pastime as soon as the court is completed.

The fact that \$10,000 passed through the Pari-Mutuel machines at the Edmonton Race Meet this year does not point to times being exceedingly hard in Alberta's capital.

MR. WINSTON CHURCHILL

Whose difference with Lord Fisher was a prime factor that caused Britain to make administrative charges and resort to a coalition parliament. In regard to Churchill and the cabinet, Lord Fisher is quoted as having said: 'What are cabinets to me? My business is to kill Germans enough to prevent Germany from winning this war. To kill Germans is the affair of seamen and soldiers, not of parliamentarians and cabinets. Therefore I will work with neither Churchill nor Balfour as the head of the admiralty.'

## SIDEWALKS GOOD IN WAINWRIGHT

As a result of a communication which appeared in these columns last week in which "Citizen" complained of faulty side-walks, a careful inspection was made of the various walks in town and especially on Third avenue, where "Citizen" reported to have met with an accident. The inspection was productive of the knowledge that Wainwright's side-walks, as a whole, are in good condition, particularly so on Third avenue. It has been suggested by Town Secretary Kenny that "Citizen" point out the faulty walk complained of, to the Town Council.

## TRY A WANT AD.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings" will be received at this office until 4.00 p.m., on Thursday, June 17, 1915, for the supply of coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained on application at this office and from the caretaker of the different Dominion Buildings. Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so or fail to complete the contract. If the tender is not accepted the cheque will be returned.

By order  
R. C. DESROCHERS, Secretary

Department of Public Works,

Ottawa, May 20, 1915.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department. -70870

ADMIRAL GREGOVITCH  
Commander of the Russian Fleet

A basket picnic will be held in the Gilt Edge school house on June 17th. The sports and other amusements will begin at one o'clock in the afternoon.

A Sample of wheat that had attained a growth of nineteen inches in length was brought into the STAR Office to-day by A. J. Martin, a well known farmer of the district. The sample is a good one and has now been placed on exhibition in the STAR window.

Mr Bosomworth will conduct services as usual in the Methodist church on Sunday.

The proceeds received from the dance conducted in the Orange Hall, Gilt Edge, on Friday evening of last week together with the funds already in the treasury, totalled a sufficient amount to warrant the purchase of uniforms for the Gilt Edge ball team. An order has now been placed for nine uniforms.

Quite a number of unpaid subscriptions are now on the STAR lists and a remittance at the earliest would be welcomed by the management. Many subscriptions for papers being sent to relatives are also in arrears. These should be paid at once.

COL. J. A. CURRIE, M.P.  
Commander of the 48th Highlanders of Toronto, 1,000 of whom volunteered for service abroad.

## PROHIBITION AND HOTEL ACCOMMODATION

What is the policy of the party advocating prohibition in respect to hotels? Have they a policy which takes into account the maintenance of hotels in the various centres of population in the province? Evidently, the advocates of restrictive legislation, or at all events, the professional organizations which profess to attack the sale of liquor only, one cannot get away from the fact, however, that not only would prohibition stop the legitimate sale of liquor, but it would destroy or depreciate the hotels which the legitimate sale has no supervening over unlicensed hotels, but it exercises complete control over hotels operated under the provisions of the Liquor License Ordinance. This control covers not only the sale of liquor, but every part of the hotel. A hotelkeeper holds his license conditionally on his adherence to the law and he must comply with the instructions of the license department in regard to the conduct of his house in every part thereof. If a guest in a hotel is dissatisfied with his food, accommodation, service, sanitary arrangements or safety of that house he can lay an information with the license department. His complaint will be investigated and if proved, the hotelkeeper will be compelled to comply with the law. This supervision is necessary in the public interest under existing conditions, why should it not be equally necessary under the operation of prohibition? The question is not so far as the public is concerned, remain the same, the only character in the situation being that the powers previously vested in the license department are no longer in existence. Who will protect the public in such a case? Are the promoters of prohibition prepared to take up this matter of the continuance of hotels and to undertake a proper measure of responsibility for it? If not, how do they propose to safeguard the interests of the public in regard to this important matter? The fact that the license is granted, and solely for the purpose of retailing liquor, and securing the carrying on of the business of hotels, is a fact which the promoters of prohibition are anxious to ignore. They do not seem to be at all concerned with the public interest, but they do seem to be deliberately misled. In people's regard to this matter, in either case it is incumbent upon them to come out with a plain statement of their policy with respect to hotels. There is no question required providing as high a standard of accommodation, service and equipment as will supply the needs of the community both the resident and the transient. Without proper hotels business is impossible. The whole community put to no little inconvenience. In considering this matter of prohibition voters should keep in view, therefore, that a vote in favor of the Liquor Act is not one solely for the abolition of the sale of liquor, but for the abolition of the hotel as at present established and supervised by law. Regulations by the authorities and redress for members of the community are possible under existing conditions, but the carrying of prohibition does away with both these satisfactory features. It is only right, therefore, that the promoters of prohibition should be asked to produce their policy in regard to the hotels. Are they prepared to undertake any responsibility or to endorse legislation which would make it compulsory for municipalities under prohibition to establish and operate such hotels as would supply the needs of their municipalities? Under existing conditions people know where they stand as regards hotels, but, in the absence of a plain statement of the policy of the promoters of prohibition they are entirely in the dark as to what will be done in the operation of the measure. The same course for the people to follow is to hold fast to that which they have rather than permit the entrance of conditions which certainly do not make for progress. Keep in mind, therefore, that a vote for prohibition is a vote against the continued existence of the hotel. A vote against prohibition on the other hand, will preserve the hotel and enable the license department to continue its guarantee to the public as to the conduct of the hotel. Prohibition does not have suffered the standard of hotels to sink to a low level. There is no reason, therefore, why the injurious operation of prohibition in respect to hotels should be carried to greater lengths. The voters should be treated as they treat their vote (X-N-O) against the Liquor Act - ADV.

Under the auspices of the Women's Auxiliary, a suffragette cream social was conducted at the home of Mrs. Middleton on Friday evening of last week.

J. F. Templeton of Hope Valley, announces that the dark bay horse colt, advertised as lost in another part of this edition, in addition to the white hind feet and white face also bears a white front foot.

It was inadvertently stated in recent issue of The STAR, that one of the wreaths given to the memory of the late Mrs. Linstead came from the family. It should have been stated that the wreath in question was donated by the local Order of Chosen Friends and that Mrs. McMillan was primarily responsible for the gift.

DR. VON BETHMANN-HOLWEG  
German Imperial Chancellor
